

MAYANK SRIVASTAV

Shopify Lead Developer | Shopify Plus | E-commerce Solutions Architect
mayanksri2852004@gmail.com | +91 7982507436 | Delhi, India | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Shopify Lead Developer with 5+ years of experience building and scaling high-performance Shopify and Shopify Plus storefronts. Specialized in custom theme development, complex API integrations, and conversion-focused UX engineering. Proven ability to own end-to-end e-commerce solutions — from architecture and development to optimization and business impact. Experienced in collaborating with stakeholders, translating business goals into technical solutions, and driving measurable growth in online revenue and user engagement.

CORE EXPERTISE

- Shopify Plus Development (Custom Themes, Checkout Extensibility, OS 2.0)
- Liquid, HTML5, CSS3/SCSS, JavaScript (ES6+)
- API Integrations (REST, Webhooks, Storefront & Admin APIs)
- Conversion Rate Optimization (CRO) & Performance Engineering
- Figma to Pixel-Perfect Implementation
- E-commerce Architecture & Business Logic Implementation
- Third-Party Integrations (Payments, CRM, Marketing Tools)
- Core Web Vitals, SEO Optimization, Mobile-First Design

PORTFOLIO — WEBSITES BUILT & AUDITED

Website	Role / Work Done	Description
1111jewels.in	Designed & Developed	Full e-commerce Shopify store — custom Liquid theme, product pages, secure checkout, mobile optimization, and on-page SEO.
incroymerv.com	Designed & Developed	Custom Shopify storefront built from scratch — Figma to pixel-perfect OS 2.0 theme, responsive across all breakpoints.
kith.com	Audit & Replica	Full UX/performance audit and pixel-perfect theme replica — reverse-engineered Liquid structure, Sections, and component layout.
shapermint.com	Pixel-Perfect Replica & Audit	Pixel-perfect replica and comprehensive audit — reproduced complex layout, dynamic sections, and conversion-optimized UX patterns.
theshlashing.com	Audit & Product Page Redesign	Conducted full store audit and redesigned product pages for client — improved layout, visual hierarchy, and conversion-focused UX using Liquid and OS 2.0.

PROFESSIONAL EXPERIENCE

Shopify Lead Developer | Freelance, Remote 2021 – Present

- ▶ Led end-to-end development of Shopify and Shopify Plus stores, from requirement analysis to deployment and optimization.
- ▶ Architected and developed fully custom Shopify themes using Liquid, enabling scalable and modular storefronts.
- ▶ Implemented advanced Shopify OS 2.0 features including dynamic sections, metafields, and metaobjects for flexible content management.
- ▶ Integrated third-party systems including payment gateways, marketing tools, and custom APIs to streamline business operations.
- ▶ Utilized Shopify Storefront & Admin APIs along with webhooks to automate workflows and ensure seamless data synchronization.
- ▶ Optimized store performance, achieving high Core Web Vitals scores and improving load times across devices.
- ▶ Collaborated with designers and stakeholders to align UI/UX with business goals, improving customer journey and engagement.
- ▶ Drove conversion rate improvements (up to 20%) through UX enhancements, structured navigation, and performance tuning.
- ▶ Translated high-fidelity Figma designs into pixel-perfect, responsive storefronts — zero design drift across all breakpoints.
- ▶ Provided ongoing technical leadership, troubleshooting, and maintenance for live production stores.

Technical Support Engineer | Kyndryl, Bangalore, India 05/2025 – 02/2026

- ▶ Acted as the primary contact between internal teams and clients to manage 99.5%+ uptime of applications, ensuring stability and rapid incident resolution across enterprise environments.
- ▶ Troubleshot errors and technical issues end-to-end, maintaining a 95%+ SLA resolution rate through structured incident handling and timely escalation.
- ▶ Managed multiple enterprise clients simultaneously — prioritizing incidents, tracking resolutions, and ensuring consistent service quality across accounts.
- ▶ Coordinated across cross-functional teams (development, infrastructure, and operations) to align on incident response, minimizing downtime and communication gaps.

Execution Manager / Area Manager | Innovatiview India Pvt Ltd, New Delhi Jun 2022 – Mar 2025

- ▶ Completed 25–30 large-scale examination projects across multiple states — each exam handled as an independent end-to-end project from planning to execution.
- ▶ Managed government examination projects including NEET, UPSSSC, RSB, and other high-stakes national/state exams — overseeing 1000+ examination centers per project.
- ▶ Coordinated directly with government authorities including District Magistrates (DM), Additional District Magistrates (ADM), and administrative bodies to ensure compliance and smooth execution.
- ▶ Led ground teams and center coordinators across cities and states — managing logistics, staffing, and protocol adherence for each project.
- ▶ Acted as the central communication bridge between government officials, internal teams, and on-ground staff throughout every project lifecycle.
- ▶ Handled real-time issue resolution during live exam operations, ensuring zero-disruption delivery across all assigned projects.

KEY PROJECTS

Shapermint — Audit, Replica & CRO Optimization

- ▶ Reverse-engineered a high-conversion Shopify store and recreated a pixel-perfect theme.
- ▶ Analyzed UX patterns, funnel design, and product page structures to understand conversion strategies.
- ▶ Implemented dynamic sections, optimized layouts, and performance improvements.
- ▶ Gained deep understanding of large-scale e-commerce architecture and CRO principles.

Kith — Theme Replica & Performance Audit

- ▶ Conducted full UX and performance audit of a premium Shopify store.
- ▶ Rebuilt theme structure using modular Liquid components and optimized layout rendering.

The Slasho — Store Audit & Product Page Redesign

- ▶ Conducted a comprehensive store audit identifying UX and performance improvement opportunities.
- ▶ Redesigned product pages for the client — improved layout, visual hierarchy, and conversion-focused UX using Liquid and OS 2.0.

1111Jewels — Full Store Development

- ▶ Designed and developed a complete Shopify store from scratch with structured navigation and secure checkout.
- ▶ Implemented mobile-first UX and on-page SEO best practices across all pages.

Incroymerv — Custom OS 2.0 Theme

- ▶ Built a fully custom Shopify storefront from Figma designs — pixel-perfect UI across all breakpoints.
- ▶ Delivered optimized performance and modular section architecture for merchant flexibility.

TECHNICAL SKILLS

Shopify	Shopify Plus, Liquid, OS 2.0, Sections, Templates, Metafields, Metaobjects, Checkout Extensibility
Frontend	HTML5, CSS3 / SCSS, JavaScript (ES6+), Responsive Design, Cross-Browser Compatibility, Core Web Vitals
APIs & Integrations	REST APIs, Webhooks, Storefront API, Admin API, Third-Party Integrations
Figma to Code	High-fidelity design translation, pixel-perfect implementation, component-based Liquid sections
E-commerce Ops	CRO, SEO, Payment Gateways, Order & Catalog Management, Performance Engineering
Tools	Git, Figma, Chrome DevTools

KEY ACHIEVEMENTS

- ▶ Increased conversion rates by up to 20% through UX enhancements, structured navigation, and performance tuning across Shopify storefronts.
- ▶ Delivered multiple production-ready Shopify Plus stores independently with full end-to-end ownership — from architecture to deployment.
- ▶ Built scalable, modular Shopify architectures using OS 2.0 principles — custom Sections, Metafields, and Metaobjects enabling merchant-friendly flexibility.
- ▶ Maintained 99.5%+ application uptime and 95%+ SLA compliance across enterprise client environments at Kyndryl.
- ▶ Successfully delivered 25–30 government examination projects — managing 1000+ centers per project across multiple states with zero-disruption execution.
